

TEMPERATURE CONTROL CONSOLES

Single Zone

- The **Single Zone** series offers a variety of control, input and heater options.
- Single series are fitted with Watlow Series EZ Zone PM controls.
- The heater output and control circuit are fused to protect the internal components from damage.
- The heater output is pre-wired making installation quick and easy.
- Each zone utilizes a solid state relay for longer heater life and a lower cost than other power switching devices.
- The heater output connectors can be ordered as either an Amp Mate-n-Lok or twist and lock connector.
- Also available in **Dual Zone** and **Quad Zone**.
